- ✓ Providers Full Name
- ✓ Daycare Business Name
- ✓ Daycare Site Address
- ✓ Providers Phone Number
- ✓ Day Care License Number
- ✓ Registration Fee (if applicable)

Abandonment of Care

Defined

Abandonment of Care is when a family has not been in communication with the provider regarding the child(s) absences for 7 consecutive calendar days.

Parents/Responsible Adults

Consistent attendance and communication regarding absences with your childcare provider is important in order to maximize the benefits of your child(s) early learning and care experience.

If your child is absent, please communicate the absence with your childcare provider in order to avoid dis-enrollment of childcare services.

Providers

Providers are required to notify the StanWORKs Child Care Program when a family has not communicated the reason for a child(s) absence for 7 consecutive calendar days.

Program

The StanWORKs Child Care Program will attempt to contact the parent/responsible adult for excessive absences and if childcare services are not being utilized. If the attempt(s) to contact the parent is unsuccessful and there has been no communication for a total of 30 consecutive calendar days, the family shall be dis-enrolled from the Child Care Program. The Notice of Action to dis-enroll the family on the basis for Abandonment of Care shall be mailed to both the family and the provider.

Reminders

- ✓ Providers understand that the StanWorks childcare program cannot reimburse above what the State establishes as the Regional Market Rate (RMR).
- ✓ Parents if you your need for childcare is changing or has changed, please contact your childcare Case Manager.
- ✓ License Exempt Providers who need to check status of their clearance TrustLine status can call 1-800-822-8490.
